

Pavement Maintenance Solutions

A complete overview of Striping and Road Marking Spray Equipment

PROVEN QUALITY. LEADING TECHNOLOGY.

▶ ABOUT GRACO

▶ ABOUT GRACO

Graco is a world leader in fluid handling systems and is a renowned quality brand name with almost 100 years experience in moving, measuring, controlling, dispensing, mixing and applying a wide range of fluids and viscous materials. Processing food and cosmetics, applying coatings on walls, furniture, cars, boats, trains and airplanes, marking of lines on roads and sports fields, spraying insulation foam, sealing glass or gluing boxes, lubricating machinery – on-road or off-road, transferring chemicals from A to B, cleaning with high pressure... Graco's innovative technologies are designed to handle these fluids and enable you to achieve your application objectives successfully.

PAVEMENT MAINTENANCE SOLUTIONS

PAVEMENT MAINTENANCE

Every day, striping contractors have the daunting task to deliver high quality marking within the most **cost effective** deadlines. Since the introduction of our first airless line striper in 1990, Graco has developed an impressive range of solutions, based upon the specific needs of our customers. From airless paint to thermoplastic materials, from mechanical to hydraulic technologies and from walk-behind to ride-on concepts, our systems deliver! We understand that very often the **quality** of the finish is in the preparation. That's where our scarifier options come into the picture.

▶ **BE THE FIRST TO KNOW!**

The easiest way to stay up to date with our latest innovations is by subscribing to our **digital E-newsletter**. This platform shares success stories from the field, announces new product features and gives our readers VIP info – before anyone else. Subscribe **NOW** at www.graco.com/stripping

▶ **FREE GRACO APP!**

Are you often looking for accessories compatible with Graco's products? Try our **FREE Graco App!** Designed for smartphone or tablet, it is your perfect tool to find what you need in no time.

www.contractorclub.com

▶ **CONTACT OUR EXPERTS ONLINE!**

Aiming at the best quality support, our specialised distributors are trained in providing professional local expertise. Can't find what you're looking for and need help?

www.graco.com/stripping

Every day, striping contractors have the daunting task to deliver high quality marking within the most cost effective deadlines. Since the introduction of our first airless line striper in 1990, Graco has developed an impressive range of solutions, based upon the specific needs of our customers. From airless paint to thermoplastic materials, from mechanical to hydraulic technologies and from walk-behind to ride-on concepts, our systems deliver! We understand that very often the quality of the finish is in the preparation.

Airless Line Striping

Airless painting technology is primarily known for its speed of application. In combination with sharp and crisp line definition, Graco's range of innovative LineLazer systems ensure high quality jobs within the most efficient timeframe.

Thermoplastic Striping

In areas with heavy traffic, the durability of road marking is a key priority. Traffic control typically needs to reduce flow obstruction to a minimum. Using thermoplastic material has proven to increase significantly the long term quality of the line. The record drying time of this application contributes greatly to smooth traffic conditions. Technologies like Graco’s on-board melting system and SmartDie applicators don’t just simplify the process, they also offer the control you need of expected line thickness.

▶ Exclusive Electric Striping Solutions

▶ Fume-free, noise-free, and vibration-free performance

Only Graco offers a complete line of electric striping solutions designed to deliver quiet, fume-free performance on indoor jobs, and the power to tackle large outdoor applications.

LINELAZER ES 1000
(PATENT PENDING)

- The industry's first battery-powered stripper
- No engine noise, vibration, or fumes
- High-capacity batteries with onboard 12V charger
- Simply plug in to recharge
- Run on 230V wall power - just plug it in

**LINELAZER V ES 2000
STANDARD SERIES**
(PATENT PENDING)

- Get your job done faster
- Higher output
- Supports 2-gun operation
- LiveLook Display

**LINELAZER V ES 2000
HP AUTOMATIC SERIES**
(PATENT PENDING)

- Automatic paint gun system
- Simplify layout and skip line work
- Job performance tracking
- J-Log System with USB download

**MAXIMUM ELECTRIC STRIPING PRODUCTIVITY
LINEDRIVER™ ES (PATENT PENDING)**

- No engine noise, vibration, or fumes
- More accurate lines - ExactMil™ speed control and low vibration
- Get the job done fast - higher output with the electric, battery-powered LineDriver ES

NO ENGINE FUMES

Enables you to stripe indoors without production shut downs or disruptions.

NO ENGINE NOISE

Do any job anytime, without disruptive engine noise.

NO ENGINE VIBRATION

Allows for perfect lines on all surfaces and reduces user fatigue.

Typical Applications

FACTORIES & WAREHOUSES

INDOOR STRIPING where exhaust fumes are not allowed

NIGHTTIME

OUTDOOR STRIPING where noise can be a concern

SPORTS FIELD MARKING

For **PAINTING LINES AND LOGOS** on sports fields

PARKING GARAGES

Where exhaust fumes and noise can be a concern in **ENCLOSED ENVIRONMENTS**

Product covered by issued and pending patents, see graco.com/us/en/patents.

Graco Exclusive LazerGuide Solutions

► More Profits, less Setup Time

LazerGuide 2000 Laser-Guided Layout System

- Easy, one-person laser-quality line production to improve productivity and eliminate the need for tape measures, string, or chalk.

Traditional Method:
Requires a string line, chalk and 2 people

LazerGuide 2000 Method:
No string line, no chalk and 1 person

Higher Productivity

Stop wasting time with strings, tape measures, and chalk

Less Labour

One-person parking lot striping

Less Fatigue

No more kneeling down to move string lines or measuring tapes

Simple Operation

Just line it up with the target box and go

Accurate Striping

Straight lines every time - even in windy conditions

► Stripe Straighter than ever - Simply Point and Stripe

LazerGuide 2000 Laser-Guided Layout System

- 1) Place the LazerGuide Target Box
- 2) Line Up the LazerGuide 2000
- 3) Stripe

Parking Lots

Intersections

Athletic Fields

Graco Exclusive LazerGuide Solutions

► Easier, Laser-straight Lines

LazerGuide 3000 Long-line Laser

- Replace your clunky mechanical pointer to improve your productivity and accuracy for airports, roads, large intersections, or anywhere a straight line is needed.

Longer Distance Accuracy

Extend reference point up to 10 meter - not possible with a mechanical pointer

Highly Visible Laser Guide

Quickly locate the laser on all surfaces with Blink Mode

Safer Operation

Laser is in your natural field of view

Faster, Simple Operation

Increase your manoeuvrability with no mechanical pointer in the way
Just line it up and go without the need to get off the machine

► Accurate Starts/Stops

LazerGuide 1700 Start/Stop Laser

- Improve the quality of your line by ensuring that your start and stop points are exactly where you want them to be. Pair with the LazerGuide 2000 or 3000 for the best possible results.

► Stripe with Laser Accuracy

LazerGuide 1700 Start/Stop Laser

- Line up the LazerGuide 1700 Start/Stop Laser directly under your spray tip to ensure accurate start/stop locations when striping, resulting in perfect lines every time.

Enhancing Line Quality

▶ A.V.R.S. = Advanced Vibration Reduction System

Removes engine vibration and takes line quality to the next level.

without A.V.R.S.

with A.V.R.S.

How does it work?

Uneven road surfaces and a running engine produce vibrations. These are transferred to the striping gun(s) and thus prevent the gun(s) from maintaining a perfectly fixed angle over the surface

New Concept

Graco invents the AVRS system which reduces vibrations up to 60%. Less vibrations simply result in better quality lines

A.V.R.S.

Reduced vibration is achieved with an exclusive pump sprayer, a mounting system and a new single gun bar holder

▶ Rear Gun Mounting

Rear Gun Mounting

Photo on the right shows the result obtained when striping 2 lines simultaneously: one gun mounted at the front and a second at the rear. Same machine, same speed, same paint

Straighter Lines

Lining up the gun(s) with the two rear wheels and axles results in straighter lines

Front & Rear Mount

Mounting the gun at the front of the machine is a requirement to stripe up to the curb on a parking lot. However, for long line pavement applications, mounting the gun at the rear improves straightness and consistency of the lines

Easy

The rear gun mounting option eliminates the need to reverse the mount of the engine and the handle

▶ Easy Out™ Pump Filter

The easy out pump filter is designed to filter from the inside out:

- Filters won't get stuck or collapse when filled with direct or debris
- Large 125 cm² filtering area reduces tip clogs and ensures a quality finish
- Vertical filter removes with the cap for less mess

Endurance™ Pump: Prolonging Pump Life

► Graco's Long Life Chromex Endurance Pump sets the industry standard

- Handle the most demanding materials with long-life rod treatment and V-Max Blue™ packings
- Durable Chromex™ rod and stainless steel sleeve deliver superior reliability and life

(A) Adjustable Packing Nut

- When the upper packings are worn out, paint leaks out and pressure drops
- With Graco, you can finish the job by tightening the nut instead of stopping for repair

(B) Quick Knock-Off™

- To remove the risk of downtime, replace the complete pump, on the job, in about 15 minutes

(C) "V"-Max Blue™ Packing

- Ultra High Molecular Weight Polyethylene material is compatible with solvent and water-based coatings
- V-Max Design means the packings constantly adjust to pressure and wear = longer lasting

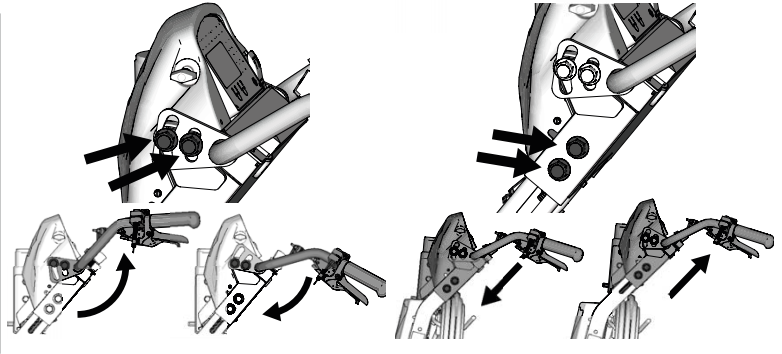

(D) QuikAccess™

- Graco pumps are field serviceable with only a hammer and a wrench
- Access the inlet and outlet without downtime and costly repairs

(E) EasyFlow™

- All fluid passages (SST) are machined with smooth curves
- The less fluid frictions allow more flow and heavier coatings

LineLazer™ V Adjustment Systems

► DualComfort Handlebar System

Improved comfort for all day striping

- Easily adjust the handle bar angle and height
- Sturdy and solid design
- Perfect fit for all size users

► EasyMark Gun Adjustment System

Gun Adjustment has never been easier

- Markings on gun bars for easy operation
- Removable “G-Clamp” is Industry-First
- New Dual Gun Clamp for solid gun control
- Provides perfect 2-gun alignment

PATENT PENDING

► EZ Align™ Wheel System

Improved Front Wheel Adjustment System

- Allows simple realignment of front wheel to maintain “straight” tracking
- No special tools needed to adjust
- Quick and easy “Fine Tune Adjustment”

► HP Automatic Double Gun Trigger System

Manual or Automatic Gun control, you choose how to operate your guns!

- Individual gun control system
- Manual control via lever
- Automatic control via push button
- Direct AutoLayout via Auto Guns

See the manual of your LineLazer for more details and instructions

LineLazer™ V Adjustment Systems

▶ LineLazer V LiveLook Display with SmartControl™

LineLazer V comes delivered with an all new LiveLook Display, providing you all your striping information at a glance. The Standard Series allows you to track and show every aspect of your striping job while the HP Automatic Series offers you much more capabilities like Auto and Semi-Auto Guns, Jobsite Data Logging and AutoLayout™.

▶ LineLazer V Standard Series: ES 2000 - 3900 - 5900 - 200

Track, measure, and control every aspect of your striping job.

Set the unit to your preferred measurements, indicating volume in gallons or liters; pressure in psi, bar or MPa; distance in feet or meters which also changes line thickness in mils or microns and speed in mph or kph.

▶ LineLazer V HP Automatic Series: ES 2000 - 3900 - 5900 - 200 - 250

The HP Automatic Series comes equipped with Automatic guns allowing you to step up in the Road Marking business. Program your unit for automatic or semi-automatic skip-lines, Auto-Layout functionality with built-in parking lot calculators and much more.

▶ Main Screens

Main Striping Screen

- Speed
- Pressure
- Litres
- Line thickness
- Line width
- Skip line (*HP Automatic and HP Reflective series*)

Measure Mode

Measure distances using your unit

Layout Mode

(*HP Automatic and HP Reflective Series*)

- Premark your jobsite
- Lay out a parking lot
- Calculate straight parking lots
- Calculate angled parking lots

Settings/Information

- Calibrate your unit
- Set your preferences
- Unit Information
- Language settings
- Marker mode (*HP Automatic and Reflective only*)

▶ Calibration Screen

Calibrate your unit for accurate measurements on each jobsite:

- Speed indication
- Line Thickness calculation
- Measure Mode
- Auto guns (*HP Automatic and HP Reflective Series*)

See the manual of your LineLazer for more details and instructions

LineLazer™ V Adjustment Systems

▶ LineLazer V Automatic Guns

Putting down skip lines has never been easier with automatic guns. With Auto Mode and Semi-Auto Mode, you can control any skip line requirement on jobsites.

Striping truck features now on a walk-behind unit!

- Program guns to start and stop automatically to deliver perfect lines every time!
- Stripe skip lines with a simple push of a button
- Push button control eliminates hand lever fatigue
- Use semi-automatic mode for single lines with fixed lengths

Select the gun that you want to use

Activate the guns for spraying

Automatic guns allow you to spray different types of road markings

▶ LineLazer V AutoLayout II System

Whatever the requirements are for a parking lot layout, AutoLayout II on your LineLazer V HP Automatic or HP Reflective series can limit your manual measuring work and lay out the dots where you want it to directly from the gun.

Finish Jobs Faster

- Up to 30% faster with walk behind strippers
- Up to 50% faster when using the LineDriver attachment

Less Hassle, Less Fatigue

- No bending to mark the lines
- Eliminates the strain to read the tape measure
- Takes the hassle out of calculating distances and stall sizes
- Simple to use every time

Screen Overview

Layout Mode:

Use the Layout Mode screen for your Premark or Layout requirements.

Angle Calculator:

Advance in parking lots and calculate the offset for angled parking lots helping you to lay out any parking lot design.

Stall Calculator

Preset your unit to lay out parking lots. Calculate the number of stalls or the stall size.

Marker Layout Mode:

Predefine marker layouts that do not have consistent distances in between.

LineLazer™ V Adjustment Systems

► J-Log System: Jobsite Data Logging

JOB	DATE	TIME	FEET	MIN	IN	IN	IN
0001	25.12.2015	1:00	3:800	12	12.1	14.0	0.0 1.1
0001	25.12.2015	2:00	10:000	14	14.7	0.7	2.0 2.7
0001	25.12.2015	3:00	4:000	15	15.0	3.0	1.0 4.5
0002	25.12.2015	3:00	0 0	15	15.0	0.0	4.0 4.0
0002	25.12.2015	6:00	11:000	14	14.9	3.9	1.0 4.9
0002	25.12.2015	7:00	10:000	14	14.3	0.3	0.0 0.3
0003	25.12.2015	9:30	7:000	15	15.3	2.3	0.5 2.8
0003	25.12.2015	10:40	12:000	12	12.1	14.0	1.0 5.1

Track your jobsite data with your unit. Let the unit save data every hour or manually select the moment you need to save data.

Sub Menu Screens

Set your unit to your needs: time, pressure, volume, contrast, guns

Control your auto-guns with even more advanced gun settings:

- Shut off your guns at low speeds
- Start you skip lines with paint or space

Control in depth information of your unit and check software revision and error codes.

► World Symbols for LineLazer V LiveLook Display

LineLazer V LiveLook Display is equipped with a World Symbols feature which can be used in any language.

Battery Powered LineLazer™ EPOWER Series

▶ 100 Ah Deep-Cycle AGM Battery

No Exhaust Fumes – No Noise

- Maintenance Free
- Holds up well to vibrations
- Fast recharge time
- Can be “Deep-Cycled” without drastically reducing battery life
- Spray up to 75 litres with one battery and up to 200 litres with 2 batteries

▶ On-Board 12V Charger

Plugs into 230V wall-power

- No external charger needed, only extension cable
- Simple recharge, just plug it in
- Voltage display while using and charging

▶ 230V Capability

Infinite spray time

- Spray while plugging in to 230V wall-power
- Even when battery is depleted
- Use as a stationary sprayer, ideal for stencil jobs

▶ Easy Access Controls

Manage your unit at the handle bar

- On-off switch for pumping system
- Pressure Control with ECO-Mode for optimal battery usage
- LiveLook Display with unit and jobsite information on ES 2000
- Storage space on ES 1000

LineDriver™ - LineDriver™ HD

Ride-On System

Why walk when you can ride? Graco LineDriver and LineDriver HD attachments connect to your LineLazer striper to provide the most innovative, user-friendly ride-on systems available to double your striping productivity.

Low-light Accuracy - FlexBeam™ LED Light System

- LED light for improved brightness with long life and less amp draw
- Retractable, breakaway design prevents damage and keeps you striping

Ride with Ease - Patented Dual Foot Pedal System

- Adjustable pedals to fit every user
- Forward and reverse capability

Easy Starting - Exclusive ProStart™ Engine Starting System

- Up to 50% less pulling effort to start the engine
- Outperforms other starting systems in cooler weather

Ultimate Comfort - Cool-Comfort™ Seat

- Grey colour stays cool in direct sunlight
- High-back seat for added support
- Extra padding for all-day comfort

Reliable, easy-to-start - Honda® Engine

- Contractor preferred - excellent power and proven reliability

Dual Foot Pedal System

LineDriver

LineDriver™ ES

Electric Battery-Powered Ride-On System

Why walk when you can ride? The Graco LineDriver ES is the quietest, most innovative, user-friendly ride-on system.

Simply connect the LineDriver ES to your LineLazer striper to double your striping productivity on any indoor or outdoor job, without the engine noise, vibration, or fumes.

High-Speed Production Efficiency

- 16 kph (10 mph) maximum speed
- 9-12 hours of run time

Quiet, All-Day Reliable Power - High-Capacity Batteries

- Four, 6 V Sealed Lead-Acid 225 Ahr AGM Batteries

Consistent Lines Every Time - ExactMil™ * Speed Control

- Set your speed for guaranteed perfect lines every time
- Exactly meet the mil thickness requirement - resulting in quality work with no wasted paint

Superior Control and Extended Run-Time - SmartDrive™ Technology with Advanced Eco-Mode

- Performance and feel of a Gas-powered LineDriver
- Regenerative braking recharges batteries to extend run-time
- Eco-Mode allows up to 12 full hours of run time and precise control at low speeds

Simple, Plug-In Charging - Onboard 24 V Charger

- Longer battery life with extended battery-tender feature

Easy Accessory Charging - Dedicated 12 V Power Supply

- Dual "cigarette lighter" power supplies for all your accessories
- Dual LED light outputs

Quick-View Power Level - Battery Monitor System

- Displays battery level for easy recall
- Alerts user when battery is low and requires a recharge

On-Hand Storage - Back Rack Storage Shelf

- Convenient storage for on-the-job supplies

* PATENT PENDING

LineLazer™ ES 1000

Mechanical Walk Behind Striper

LineLazer™ ES 1000

Battery Compartment

Built-In Charger

► Applications & Materials

Striping without exhaust fumes or noise? Powered by a high-output battery, the LineLazer ES 1000 is safe to use indoors while having the power and performances needed for all jobs.

► Features & Benefits

No Engine noise, vibration and exhaust fumes

- Complete any job at any time without production shutdowns or disruptions
- Reduce user fatigue while delivering perfect lines on all indoor and outdoor surfaces

Quiet, reliable power

- Maintenance-free sealed deep-cycle 12V 100Ah AGM battery
- Stripe up to 75 liters per charge
- Add a second battery and get up to 200 liters per charge

On-Board 230V Charger

- Built-In Charger System for 230V. Simply plug in to recharge, no need to remove the battery 230V capability
- Get infinite spray time when using for stationary applications by running on 230V wall power

See page 20 for more detail

Exclusive LineLazer™ frame

- Industry's best-balanced chassis allows for straighter lines
- Accepts LineDriver, 55 liter hopper, EZ Bead™ system, pointer, LaserGuide systems and LED light

DualComfort™ Handlebar System

- Fits all users and easy to adjust
- Solid 4-bolt design

EZ Align™ Front Wheel System

- Simple front wheel alignment keeps unit tracking straight
- Intuitive design without needing any special tools

EasyMark™ Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up every time

LineLazer™ V ES 2000

Battery Operated Mechanical Walk Behind Striper

LineLazer™ V ES 2000

LineDriver ES

LiveLook Display

► Applications & Materials

Need more output, dual gun capability and features from a battery powered LineLazer? The LineLazer V ES 2000 is powered by the same high-output battery as the ES 1000 and is available as a Standard and HP Automatic series striper.

► LineLazer V Features & Benefits

No Engine noise, vibration and exhaust fumes

- Complete any job at any time without production shutdowns or disruptions
- Reduce user fatigue while delivering perfect lines on all indoor and outdoor surfaces

Quiet, reliable power

- Maintenance-free two sealed deep-cycle 12V 100Ah AGM battery
- Stripe immediately up to 200 liters per charge

LiveLook™ Display with SmartControl™

- Track, measure and control every aspect of your job
- Real-time information for the perfect lines

EZ Align Front Wheel System

- Simple front wheel alignment keeps unit tracking straight
- Intuitive design without needing any special tools

Includes all Standard Series Features PLUS:

► LineLazer V HP Automatic Series Features & Benefits

Automatic Paint Gun System

- Push button control for lower operator fatigue and accurate (skip-)lines
- Manual, semi- and automatic guns/mode

Auto-Layout™ II

- SmartControl™ measures while you walk and puts down pre-marks
- No need for measuring tape or string lines cutting
- Cuts your parking lot layout time in half

Valuable job information with J-Log System

- Onboard job information for proof of completion
- USB download allows you to capture all job data

See page 36 for more detail on 1- and 2-gun offering in Standard and HP Automatic Series

LineLazer™ 3400

Mechanical Walk Behind Striper

LineLazer™ 3400

Front Swivel Wheel

Stencilling

► Applications & Materials

The LineLazer 3400 is the preferred choice for contractors who are looking for professional performance in a 1-gun striper. This striper is ideal for parking lots and seal coating contractors, schools, park and recreation departments.

► Features & Benefits

Handlebar Design

- Adjustable design, allows for optimal ergonomics and reduced vibration on your hands or all-day striping comfort.
- Contoured grips comfortably fit your hands

Updated frame

- 7 cm longer for greater stability and straighter lines
- Now accepts 55 liter hopper and EZ Bead™ system

Front Swivel Wheel

- Provides easier "up to the curb" parking lot striping and hard-to-do curves
- Tapered locking pin design for years of dependable operation

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up every time

Rear Mount Hose Wrap

- Provides easy on/off for stenciling applications

Electronic Pressure Control

- Accurate, tight tolerance system provides excellent line quality

See page 38 for more detail

LineLazer™ V 3900 - LineLazer™ V 5900

Mechanical Walk Behind Stripers

LineLazer™ V 3900

LineLazer™ V 5900

► Applications & Materials

The LineLazer V 3900 is the airless line striping choice for professional striping contractors who want the industry's best striping unit. The LineLazer V 5900 continues to be the mid to heavy-duty striping solution for professional contractors who recognize the increased productivity this leader delivers.

► Features & Benefits

LiveLook™ Display with SmartControl™

- Track, measure and control every aspect of your job
- Real-time information for the perfect lines

DualComfort™ Handlebar System

- Fits all users and easy to adjust
- Solid 4-bolt design

EZ Align Front Wheel System

- Simple front wheel alignment keeps unit tracking straight
- Intuitive design without needing any special tools

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up every time

► Includes all Standard Series Features PLUS: Features & Benefits

Automatic Paint Gun System

- Push button control for lower operator fatigue and accurate (skip-)lines
- Manual, semi- and automatic guns/mode

Auto-Layout™ II

- SmartControl™ measures while you walk and puts down pre-marks
- No need for measuring tape or string lines cutting
- Cuts your parking lot layout time in half

Valuable job information with J-Log System

- Onboard job information for proof of completion
- USB download allows you to capture all job data

OnBoard Power

- 12V battery for all your accessory items

See page 38-40 for more detail on 1- and 2-gun offering in Standard and HP Automatic Series

LineLazer™ 130HS

Hydraulic Walk Behind Striper

LineLazer™ 130HS

► Applications & Materials

The LineLazer 130HS is the ultimate hydraulic airless striping unit that contractors rely on for their most challenging striping jobs. Professional striping contractors wanting hydraulic performance and proven power cannot go wrong with the LineLazer 130HS.

► Features & Benefits

Storage Compartment

- Convenient storage area for tips, guards and miscellaneous items

DualComfort™ Handlebar System

- Fits all users and easy to adjust
- Solid 4-bolt design

EZ Align Front Wheel System

- Simple front wheel alignment keeps unit tracking straight
- Intuitive design without needing any special tools

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up every time

QuickSelect Gun Selector

- Independently control two guns with one chrome gun lever

Honda Power

- Contractor preferred – excellent power and proven reliability
- Oil Alert shuts down engine to prevent damage if oil level drops too low

Exclusive Easy Out Filter System

- 50 mesh filter for no plug performance
- Inside-out design means less mess and fewer tip clogs

Rear Gun Mount System

- Place the guns near the rear axle for straighter long lines and smoother curved lines

See page 38 for more detail on 1- and 2-gun offering

LineLazer™ V 200Hs

Hydraulic Walk Behind Striper

LineLazer™ V 200Hs

LineLazer™ V 200Hs HP Reflective

► Applications & Materials

The LineLazer V 200Hs is the high performance hydraulic striper you'll want for your most demanding jobs. It's proven history of innovative features has made it the striper of choice for contractors demanding a true workhorse. The LineLazer V 200Hs is the perfect unit for large parking lot jobs, airports, and city jobs that not only require precise lines but also demand reflective beads.

► Includes all Standard Series Features PLUS: **Features & Benefits**

Automatic Paint Gun System

- Push button control for lower operator fatigue and accurate (skip-)lines
- Manual, semi- and automatic guns/mode

Auto-Layout™ II

- SmartControl™ measures while you walk and puts down pre-marks
- No need for measuring tape or string lines cutting
- Cuts your parking lot layout time in half

Valuable job information with J-Log System

- Onboard job information for proof of completion
- USB download allows you to capture all job data

Onboard Power

- 12V battery for all your accessory items

► Includes all HP Automatic Series Features PLUS: **Features & Benefits**

Pressurized Bead System

- Onboard closed compressor avoids dust and debris from entering
- Ensures proper bead flow and paint penetration
- Large volume bead tank holds up to 54kg
- Bead gun activates automatically with spray gun
- Bead gun with gun-delay ability
- Adjustable nozzle for bead dispensing width adjustment

See page 38-42 for more detail on 1- and 2-gun offering in Standard, HP Automatic and HP Reflective Series

LineLazer™ V 200dc

Hydraulic Dual Colour Walk Behind Striper

LineLazer™ V 200dc

LineLazer™ V 200DC Standard

► Applications & Materials

The LineLazer V 200DC offers you Dual Colour Capability in a push-behind hydraulic airless striping unit. Offered in Standard, HP Automatic and HP Reflective series, the LineLazer V 200DC offers you two units in one. Take one unit to a two-colour jobsite and get the job done faster! As a bonus you'll save on transport compared to transporting two units for individual colours.

LINELAZER V 200DC includes same features as LineLazer V200HS PLUS:

► Features & Benefits

Dual-Colour capable

- Dual colour applications with a single unit improves efficiency and profitability

Dual Graco Hydraulic Motors

- No-stall hydraulic design provides uninterrupted performance

Dual Endurance Piston Pumps

- Long life pumps provide precise flow for a wide range of striping materials

Dual 38 Litre Hoppers

- Extended striping time with large capacity hoppers

Onboard Power

- 12V battery for all your accessory items

See page 39-42 for more detail on 1- and 2-gun offering in Standard, HP Automatic and HP Reflective Series

LineLazer™ V 250sps

Hydraulic Ride-On Striper

LineLazer V 250sps *HP Automatic*

LineLazer V 250sps *HP Reflective*

► Applications & Materials

High performance, self-propelled striping with automatic paint guns makes the LineLazer V 250sps the preferred striper for professional contractors who demand more. This striper is ideal for large, heavy-duty line striping jobs including parking lots and road jobs.

► Features & Benefits

Automatic Paint Gun System

- Push button control for lower operator fatigue and accurate (skip-)lines
- Manual, semi- and automatic guns/mode

Exclusive Stand-On Platform

- Integrated platform provides an ergonomic place for standing, great view and all-day comfort

Self-Centering Front Wheel

- Eliminates one user interface for simpler operation
- Foam filled for stability

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up every time

► Includes all HP Automatic Series Features PLUS: Features & Benefits

Pressurized Bead System

- Onboard closed compressor avoids dust and debris from entering
- Ensures proper bead flow and paint penetration
- Large volume bead tank holds up to 54kg
- Bead gun activates automatically with spray gun
- Bead gun with gun-delay ability
- Adjustable nozzle for bead dispensing width adjustment

See page 38-43 for more detail on 1- and 2-gun offering in HP Automatic and HP Reflective Series

LineLazer™ V 250dc

Hydraulic Dual Colour Ride-On Striper

LineLazer V 250dc HP Automatic

LineLazer V 250dc HP Reflective

► Applications & Materials

Spray two colours simultaneously with Graco's new LineLazer V 250dc. Ideally suited for airports, municipalities, DOTs or anyone who needs to spray highlight lines or other dual-colour striping.

► Features & Benefits

Dual-Colour capable

- Dual colour applications with a single unit improves efficiency and profitability

Dual Graco Hydraulic Motors

- No-stall hydraulic design provides uninterrupted performance

Dual Endurance Piston Pumps

- Long life pumps provide precise flow for a wide range of striping materials

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up every time

► Includes all HP Automatic Series Features PLUS: Features & Benefits

Pressurized Bead System

- Onboard closed compressor avoids dust and debris from entering
- Ensures proper bead flow and paint penetration
- Large volume bead tank holds up to 54kg
- Bead gun activates automatically with spray gun
- Bead gun with gun-delay ability
- Adjustable nozzle for bead dispensing width adjustment

See page 38-43 for more detail on 2- and 3 gun offering in HP Automatic and HP Reflective Series

LineLazer™ V 200MMA 1:1

Hydraulic Walk Behind 2-Component 1:1 Striper

LineLazer V 200MMA 1:1
(unit shown includes optional LazerGuide 1700)

1:1 Hydraulic Proportioner

Air-Purge Fusion Gun

► Applications & Materials

The Graco LineLazer 200MMA 1:1 delivers superior performance that guarantees ratio assurance with a 1:1 hydraulic proportioner and an Air-Purge Fusion gun from Graco, a +10 year Industry Proven 2-component internal mixing gun with Air-Purge flushing capability. No need to carry solvent during the jobsite, the gun is purged using compressed air.

► Features & Benefits

LINELAZER V 200MMA 1:1 includes same features as LineLazer V200DC HP Reflective PLUS:

Dual Graco Hydraulic Motors

- No-stall hydraulic design provides uninterrupted performance

Dual Endurance Piston Pumps

- Long life pumps provide precise flow for a wide range of striping materials

Dual Paint Bucket holder

- Extended striping time with large 55 litre capacity buckets

Precise MMA 1:1 Ratio

- Innovative Flow Divider guarantees equal material flow of each component
- Built-in bypass valve for independent pump operation

Graco Fusion™ Air-Purge Gun mixes materials “at the gun”

- Instant air purge after every line, or disable for purging after last skip-line
- Clears all material in the mixing chamber and eliminates buildup of material on the tip
- Quick-release fluid housing lets you easily change mix chamber without tools
- RAC® 5 SwitchTips™ for easy clearing of a tip clog

See page 38-43 for more detail on 1- and 2-gun offering in Standard, HP Automatic and HP Reflective Series

LineLazer™ V 250MMA 98:2

Hydraulic Ride-On 2-Component 98:2 Striper

LineLazer V 250MMA 98:2
(unit shown includes optional 2nd gun kits)

► Applications & Materials

Spraying 2-component 98:2 road markings has never been more reliable with LineLazer V 250MMA 98:2. Based upon the LineLazer V 250 range, this unit provides it all: built in 98:2 mixing capabilities and Ratio Assurance, on-board storage tanks and solvent flushing capabilities.

► Features & Benefits

Automatic Paint Gun System

- Push button control for lower operator fatigue and accurate (skip-)lines
- Manual, semi- and automatic guns/mode

Exclusive Stand-On Platform

- Integrated platform provides an ergonomic place for standing, great view and all-day comfort

Self-Centering Front Wheel

- Eliminates one user interface for simpler operation
- Foam filled for stability

EasyMark Gun Adjustment System

- Simple guide mark system
- Easy gun on/off, front/back
- Perfect gun set up every time

Pressurized Bead System

- Installed and ready to go
- Ensures proper bead flow and paint penetration

Exclusive 98:2 Mixing System

- On-Board storage tanks for MMA, BPO and solvent
- Exclusive hard-connect MMA and BPO pump design
- Engineered for superior ratio control, from 1.5 to 4.0%
- Integrated mix hose for consistency in material mixing
- Ratio assurance system and mix-manifold for outstanding performance

57 Liter MMA Hopper

- Extended striping time with large capacity hopper along with 7 Liter of BPO pressure pot

Solvent Flush System

- 7 Liter solvent reservoir connected to an endurance piston pump provides pressurized flushing capability of manifold, hose assembly and gun

Ratio Assurance System

See page 45 for more detail

RoadLazer RoadPak™

RoadPak™ and RoadPak™ HD System

Truck Mount Striping Systems

RoadPak HD System

RoadPak 1-Pump System

RoadPak 2-Pump System

► Applications & Materials

RoadPak System, a complete modular setup to comply with your road striping situation. Based upon a RoadPak Module with 1 or 2 pumps, the RoadPak system is delivered in 12 different options or can be compiled to fulfil your striping needs. The RoadPak HD System offers a whole new level with double the output of RoadPak and the ability to stripe with up to 5 or more guns. This is a high-productivity striping machine which is delivered in 4 different options or can be compiled to fulfil your striping needs.

► Features & Benefits Includes all RoadPak System Features PLUS:

Heavy-Duty RPS 2900 Hydraulic System

- Proven performer built off of our highly reliable GH™ 833 then optimized for road striping
- No-stall design provides the productivity you get from Graco designed products
- Maximum pressure of 200 bar

Displacement Pump System

- Graco's displacement pumps have delivered outstanding results in pumping striping paint for over 20 years
- Prime valve allows you to recirculate paint keeping it mixed and ready to go

Heavy-Duty Modular Frame System

- Small frame size allows it to fit almost anywhere – from the back of a pickup or flatbed truck to the bed of a utility vehicle
- Heavy-duty steel frame is built to last
- Simple to add options you want in minutes – optimizing your striping system

Heavy-Duty Compressor

- 6.9 bar at 13.1 cfm
- Accumulation Tank for paint and bead guns (20 litres on RoadPak HD to support up to 5 paint and 5 bead guns)

Kohler® Power

- RoadPak: 19 hp Kohler engine
- RoadPak HD: 26.5 hp EFI Kohler engine
- Over 15 years of reliable experience

1 or 2-Pump RoadPak System

- RoadPak is delivered as a 1-or 2-pump system allowing single or dual colour option (RoadPak HD always 2 pumps)
- Step up to RoadPak HD to double your output up to 37.8 litre per minute
- Optionally expand your system with extra pumps for other colours

RoadView HD Camera System

► RoadView HD Camera System

Turn your RoadPak into a single user vehicle with the RoadView HD Camera System. It allows single users to do the jobs once reserved for the “big trucks” – all from the inside comfort of the striping vehicle.

The camera mounts on the gun arm and travels from one side of the truck to the other without adjustments. The view of the camera allows users to see from behind the paint and bead guns, which is very similar to the view from a walk behind unit. A quick disconnect electrical system for the camera allows safe storing when not using and also allows you to switch between the standard 16 mm or optional 6 mm camera. The 16 mm camera provides a “farther-out” view, while the 6 mm camera option is a great choice for those striping contractors who prefer a “closer-in” view.

It's easy to match up old stripes with the remote, hand activated Switch System. With a push of your thumb, you control the start and stop on those tough restripe jobs.

6 mm Camera

16 mm Camera

► Specifications

- LCD Monitor measurement 9 inch Diagonal: 22.9 cm x 14.5 cm x 3.2 cm
- Ratio: 16:9 Wide TFT Screen
- Camera (16 mm): 6.4 cm x 5 cm x 5 cm
- Power Source: DC 12V
- Operating Temperature: -42°C to 65°C

RoadPak™ Advanced Controller

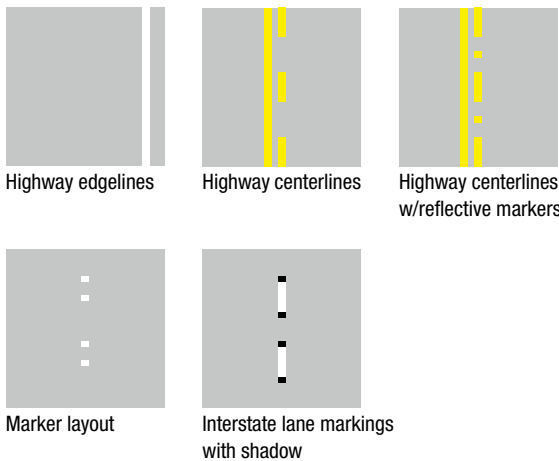

▶ RoadPak Advanced Controller

The RoadPak Advanced Controller offers an operator simple to use controls that will make striping road jobs easy. Check your Roadpak, program skip lines, measure distances, all from within the comfort of the vehicle.

▶ Pattern Capability

Road Markings

Airport Patterns

▶ Features

Main Screen with Pattern Preview

Main screen provides all necessary information while striping. Pattern preview provides a quick visual of colours and patterns selected.

Preset Buttons

User defined preset buttons allow you to adjust the main screen to your personal needs.

4-Axis Joy-Stick

Easily move through menus and settings and changing or (de)activating parameters.

5-Gun Toggle Control

Toggle switch for all 5 guns allows for quick activation and control.

Proof-of-Job

Included with Export Capabilities to download jobsite data to USB stick for "proof-of-job".

Pattern Ability

Wide variety of gun activation and pattern capability:

- o Manual
- o Automatic
- o Semi-Automatic
- o Zipper Pattern
- o Solid & Skip lines
- o Shadow and Contrast lines

RoadLazer RoadPak™

RoadPak™ Mount System

► RoadPak Mount System

Install your RoadPak on almost any vehicle using a Single-Hitch Mounting Frame or a Slide-In Mounting Frame. The Mounting Frame allows you to attach your gun arm to your vehicle for easy left/right spraying but comes in two easy-to-install options depending on the vehicle on which you want to install your RoadPak.

► Mount Systems

Slide-In Mounting Frame

The Slide-in Mounting Frame allows many different vehicles to perform your road striping jobs.

Single-Hitch Mounting Frame

A Single-Hitch Mounting Frame allows you to use your existing vehicle with little or no modifications to carry your gun bar arm with the RoadPak System.

CHOOSE YOUR ROADPAK MODULE ACCESSORIES (continued)	
239935	PAINT DRUM AGITATOR KIT Kit used to mix paint in a 208 litre drum. All SST construction air-driven Twistork™ motor powered by the RoadPak air system.
24J149	BOTTOM FEED FITTINGS KIT (FOR PAINT TANK) Kit allows user to drill a hole in the bottom of the 125 litre paint tank and connect fittings so the material can flow out the bottom of the tank rather than being sucked out the top.
24G774	ROADPAK Y-STRAINER KIT Kit is a Y-strainer that connects inline between the paint drum and the pump inlet.
24G765	ROADPAK 205 KG BEAD TANK KIT Kit has a bead tank with regulator, mounting brackets and fasteners. It can be mounted onto the RoadPak frame or the accessory frame kit
25D608	ROADPAK 615 KG BEAD TANK KIT WITH FRAME Kit has a 615 kg bead tank installed in an accessory frame
25D641	ROADPAK 615 KG BEAD TANK Kit has a 615 kg bead tank with regulator, mounting brackets and fasteners
24G772	ROADPAK 3 RD GUN KIT (ROADPAK BEFORE 2018) Kit comes with a dual acting paint gun, dual acting bead gun, the hardware and hoses to connect the guns to the system
24G775	ROADPAK DOUBLE DROP KIT Kit is for element double drop application. It comes with one bead gun, one bead hose and fittings to connect the parts
24G776	WATERBORNE SIPHON KIT (ROADPAK ONLY) Suction hose for waterborne materials
24G777	SOLVENT SIPHON KIT (ROADPAK ONLY) Suction hose for oil-based materials
24G979	BEAD GUN KIT Kit for a single bead gun
24G980	PAINT GUN KIT Kit for a single paint gun
24G778	ROADPAK STENCIL GUN KIT
238957	HAND BEAD GUN KIT
24H585	ROADPAK ACCESSORY FRAME KIT Accessory frame that includes the hardware to connect it to the RoadPak frame

ThermoLazer™ Kettle Systems

A kettle system for your needs. That's what we strive for. High volume ThermoLazers with external refills or built-in heaters or a medium volume ThermoLazer with easy kettle exchange for colour changes, Graco offers it all.

▶ ThermoLazer 200rc Exchangeable Kettle System

Easy exchange of the kettle system allows fast colour changes. Use multiple colours on the same machine by exchanging kettles on the jobsite. No more hassle with multiple dedicated units.

▶ ThermoLazer 300rc Dual PaddleMax™ System

Reduce the need to constantly refill with a 135kg single chamber hopper. The single chamber design allows easy refills from an external kettle system and the Dual Paddles make mixing materials easy.

▶ ThermoLazer ProMelt QuadMelt™ System

Stepping up to the ProMelt QuadMelt system offers you four on-board chambers that can melt 135 kg of material in less than 1 hour, significantly increasing your daily productivity. The four chamber design offers more surface area to quickly melt thermoplastic and is supported by 100,000 BTU burners which increases melt time and productivity.

ThermoLazer™ Die Systems

From narrow over wide to double lines, choose the Die-System for your ThermoLazer: SmartDie II for ThermoLazer 300Tc and ProMelt or FlexDie for ThermoLazer 200Tc. These hardened steel dies come with an innovative, built-in line thickness adjustment system that allow you to easily dial down to the desired depth. Our Die Systems come in a variety of sizes allowing you to do narrow or wide lines or win time and money with our Double Line Systems.

BlackDie™ surface for maximum heat retention

Handle bar for easy die replacement and disassembly without tools

ThermoLazer™ Units

ThermoLazer™ 200Tc

ThermoLazer 200Tc

► Applications & Materials

The ThermoLazer System, brought to you by Graco is one of the most productive and easy to use thermoplastic handliners in the industry. The ThermoLazer 200Tc is an ideal unit to expand your thermo fleet with a small push-behind unit for those small jobs.

► Features & Benefits

FlexDie™ System

- Delivers excellent line quality with exclusive deep-die, all steel construction and a no-tools change-out design

90 kg Material Kettle

- Easy-to-fill cylindrical kettle allows precise melting of thermoplastic material, and its no-tool change-out design lets you switch colours fast

18 kg Bead Hopper

- Perfectly matched to the material kettle with a superior flow design

Direct Heat System

- Direct flames and an on-board hand torch deliver maximum heat, resulting in maximum material flow

Tri-Wheel System

- Dual solid front and single solid rear wheels provide smooth, quiet operation

Adjustable Handle

- Handle easily adjusts to multiple heights

Adjustable Front Pointer

- Easily adjusts for all size dies for following all marks and creating straight lines

Bead Dispenser

- 30 cm dispenser with 2.5 cm increments allows you to "dial-in" the drop rate

ThermoLazer™ 300Tc

ThermoLazer 300Tc

► Applications & Materials

The ThermoLazer 300Tc with its 135 kg material kettle allows more striping and less time spent refilling with material, while its' EasyGlide™ Wheel Mount System makes this unit as easy to maneuver as a LineLazer.

► Features & Benefits

SmartDie II System

- Delivers excellent line quality with exclusive deep-die, all steel construction and a no-tools change out design

135 kg Material Kettle

- Easy-to-fill kettle with PaddleMax Dual mixer for improved mixing

40 kg Bead Hopper

- Perfectly matched to the material kettle with a superior flow design

Direct Heat System

- Direct flames and an on-board hand torch deliver maximum heat, resulting in maximum material flow

Adjustable Handle

- Handle easily adjusts to multiple heights

Adjustable Front Pointer

- Easily adjusts for all size dies for following all marks and creating straight lines

Bead Dispenser

- 30 cm dispenser with 2,5 cm increments allows you to "dial-in" the drop rate

ThermoLazer™ ProMelt

ThermoLazer ProMelt

► Applications & Materials

Only Graco's breakthrough technology allows you to melt 135 kg of thermoplastic on-board in less than an hour. It's like having a premelter on wheels without the cost. Finally a solution for melting and applying thermoplastic without the hassle and cost of premelters.

► Features & Benefits

ProMelt Technology

- 4 Chamber Melting System—More surface area to melt thermoplastic fast
- 100,000 BTUs—Faster melt time means more jobs get done everyday

SmartDie II System

- Delivers excellent line quality with exclusive deep-die, all steel construction and a no-tools change-out design

135 kg Material Kettle

- Easy-to-fill four chamber Quadmelt kettle system for improved heat transfer and mixing

40 kg Bead Hopper

- Perfectly matched to the material kettle with a superior flow design

Adjustable Handle

- Handle easily adjusts to multiple heights

Adjustable Front Pointer

- Easily adjusts for all size dies for following all marks and creating straight lines

Bead Dispenser

- 30 cm dispenser with 2,5 cm increments allows you to "dial-in" the drop rate

LL5 Spray Tips: Creating Laser-Sharp Lines

► Graco's LineLazer RAC V SwitchTips

Specially designed for Line Striping Equipment, Graco's LL5 spray tips create clean and laser-sharp lines with no fuzzy edges. LL5 tips spray heavy waterbase to thin alkyd traffic paint and ensures consistent paint thickness, from edge to edge, less overspray and long-lasting lines.

Understanding Tips

The pump delivers:

- Paint flow
- Paint pressure

The tip defines:

- Spray angle
- Spray volume

The tip size tells the pump how hard it must work.

The Secret behind the Numbers

(All tip specifications are measured 30 cm away from the surface)

The first digit describes the angle, i.e. 6 = 60°.

Multiply first digit by 5 to get the actual fan width when spraying 30 cm away from the wall, i.e. $6 \times 5 = 30$ cm.

The 2nd and 3rd digits describe the orifice size, i.e. 21 = 0.021".

Adjusting to the Right Tip

Basic rule: when switching tips, adjust to the new fan width and new orifice size. Together. e.g.: 517 -> 619

PROBLEM	SOLUTIONS
<p>Too much paint?</p> <p>0.017" = 1.17 lpm</p>	<p>1. Reduce orifice size</p> <p>513</p> <p>0.013" = 0.7 lpm</p> <p>2. Increase fan angle</p> <p>717</p>
<p>Not enough paint?</p> <p>0.017" = 1.17 lpm</p>	<p>1. Increase orifice size</p> <p>521</p> <p>0.021" = 1.8 lpm</p> <p>2. Decrease fan angle</p> <p>317</p>

LL5 Spray Tips

When to replace a Tip?

A spray tip controls the amount of fluid sprayed by using different orifice sizes. The shape of the orifice on the other hand, determines the spray pattern. The chart below explains the impact of tip wear on the quality of your job.

WHAT IS TIP WEAR?

- 1) **FAN WIDTH DECREASES** = MORE PASSES NECESSARY = MORE LABOUR
- +
- 2) **ORIFICE SIZE INCREASES** = MORE PAINT COMES OUT = MORE MATERIAL COST
-
- TOTAL:** **TWICE THE LABOUR!** + 30% MORE PAINT FOR THE SAME SURFACE!

TIP WEAR CHART:

FAN WIDTH - NEW TIP	FAN WIDTH - WHEN WORN
5 cm	4 cm
10 cm	8 cm
15 cm	12 cm
20 cm	15 cm
25 cm	20 cm
30 cm	25 cm
35 cm	30 cm
40 cm	35 cm
45 cm	40 cm

* These are recommendations only.

* Paint abrasion and pressure are the two variables increasing wear speed.

WEAR ITEMS

			Graco does not cover wear items: tips, filters, sleeves, rods, packings, repair kits, seats, balls, brushes, dies, ...
--	--	--	--

OTHER WARRANTIES

			Components not manufactured by Graco are covered by their own warranties: gasoline engines, hoses and batteries. All Graco products are covered by a one year warranty period against manufacturing defects. Consult our "Blue Book" (Form No. B0170) for complete detailed information on Graco's policies (warranty, freight, returns, etc.).

ABOUT GRACO

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and unparalleled customer service. Working closely with qualified distributors, Graco offers systems, products and technology that set the quality standard in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
